EDUCATION ENGINEERED FOR THE FUTURE

Arlington Tech is a new full-time high school program which prioritizes rigorous, college-preparatory, academics in a contextualized, authentic platform. This STEM program leverages career and technical classes to employ project-based learning, which integrates academics with 21st century career skills. Learning at Arlington Tech is active (through inquiry), authentic (through projects), and motivated by the student's interest.

Arlington Tech
Infinite Possibilities

21ST CENTURY SKILLS

The curriculum at Arlington Tech includes an explicit focus on **developing skills in Collaboration, Creativity, Critical Thinking, and Communication**.

PROJECT-BASED LEARNING

PBL is a **student-centered approach to learning in which students acquire a deeper knowledge of content and skills** through active exploration of real-world challenges and problems.

EARLY COLLEGE CREDITS

Students may earn college credit for a variety of CTE and academic classes. By the 11th grade, all students will have the opportunity to take college level courses, allowing students to graduate with transferable college credits and a General Education Certificate from NVCC.

INDUSTRY CERTIFICATIONS

Students will earn an industry specific certification in a technical area of their choice. These certificates make students competitive as interns during their 12th grade capstone experience.

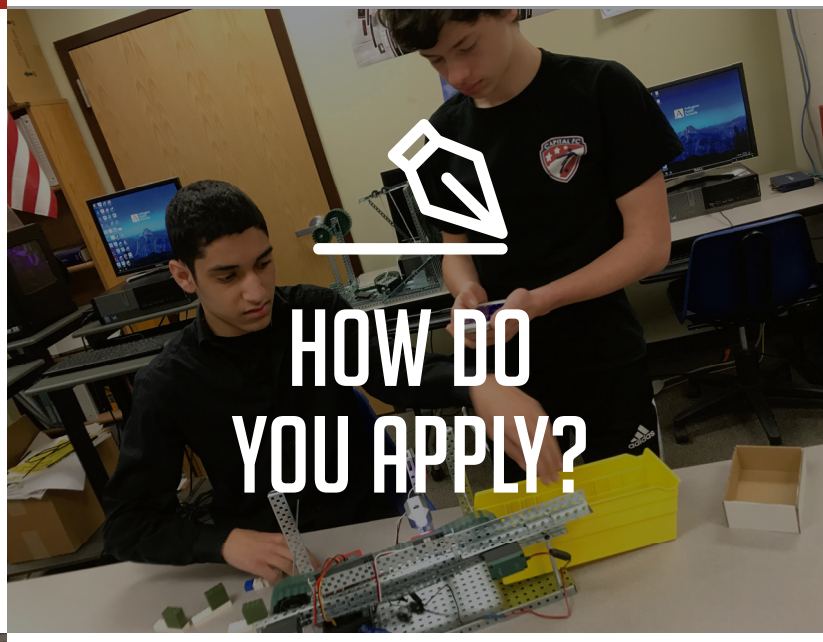
WHY CHOOSE ARLINGTON TECH?

Arlington Tech offers a unique instructional environment designed to facilitate deeper learning. Our methodology, Project-Based Learning, enables student autonomy, inquiry, critical thinking, and collaboration. Students develop future-ready skills and master content in contextualized, client-driven work. At Arlington Tech, learning is not prescriptive, it's engaging, challenging and relevant.

Arlington Tech is located at the Arlington Career Center campus, where students have access to exceptional lab spaces and a variety of Career and Technical Education (CTE) courses.

Arlington Tech students earn Early College Credits through dual enrolled classes with the Northern Virginia Community College. Students may graduate with a college transcript of up to 30-40 college credits.



HOW DO YOU APPLY?

Applications open online in November and remain open until January. Online applications can be found on the Options Schools page on the APS website or on the Arlington Tech website.

If we receive more applications than we have spots, a double blind lottery will occur in early February. To qualify for enrollment, students need to meet certain academic expectations.

WANT TO LEARN MORE?

Check out our website for event dates and times. We will be represented at High School Information Night and will host additional Information Sessions at the Career Center.
